Gamipress Social Share Integration

Posted by firefox - 2021/11/30 08:57

_____

I would like to integrate Gamipress Social Share into the Fancybox so that the users of my community earn points when they post a picture on social media. There is a shortcode for this. Can I somehow get it into the Fancybox?

_____

Hello,

The lightbox builds content dynamically on client side so it is not possible to use WordPress shortcode in it.

Regards,
ARI Soft
