Lightbox Navigation Missing

_____

Hi everyone,

Iâ€™m using ARI Fancy Lightbox on a standard WP 6.0.2. installation.

used in a standard wordpress gallery, the plugin works fine, but for some reason, the navigation arrows, slide information, the thumbnails and the slideshow buttons are not showing. Keyboard navigation also doesnâ€™t work.

I already tried disabling all other plugins, and also tried disabling the ARI plugin. I also tried to uncheck/recheck the relevant tickboxes, but to no avail.

Do you have an idea what could be wrong?

The page I need help with: https://landschaftlesen.net/impressum/

thanks,

Gebhard

Hello,

Open "ARI Fancy Lightbox -> Settings -> Integration" page and populate "Images -> Custom grouping selectors" parameter with the following code:

.wp-block-gallery$$A

Regards,
ARI Soft
