Hello,

Our plugin doesn't require any additional plugin except "Contact Form 7" and it doesn't show the specified message. It is shown by another plugin or by your theme.

Sory, you are right - its another plugin

I have one more question - auto updates is not available. How turn on auto updates?

Your product works great and updated automatically.

But i have still message in my admin-panel "Connects - Contact Form 7 Addon requires "CP_PLUS_NAME" & "Contact Form 7" installed and activated."

As we wrote previously our plugin doesn't show this message. It is added by another plugin/theme.
