
doesnt move mails to mailerlite\'s group

Posted by Andriy1983 - 2019/06/25 13:39

Hi

I setup all keys but emails doesn move to subscribers list.

This is my video:<https://www.screencast.com/t/AqryYLnklj>

Hello,

Please enable "Application log" and "Debug log" parameters on "CF7 Connector -> General" page to investigate the problem. After this fill the form, return back to "CF7 Connector -> General" page and open "View log" links for "Application log" and "Debug log". Send the logs by e-mail please.

Regards,
ARI Soft
