## ARI Zoom thumbnail alignment problem

Posted by lactom - 2011/10/20 06:23

---

I got version 2.2.1 and the thumbnails appears to be squeeze together.

<http://www.ki-nailbar.com/index.php/nails-lookbook>

If you hit the refresh on the browser it will be normal, but once you navigate from the top menu it get squeeze at the top.

Any help if appreciated.

Hello,

What browser do you use?

I tried Chrome, Firefox and Explorer same effect. I notice that when I turn off "Include jQuery" the problem goes away but then I get no zoom.

Could you provide temporary access to your J! backend by email so we could investigate the issue due to we can't reproduce the problem on our test server?
