
VirtueMart integration

Posted by mohin.g - 2009/12/18 12:11

hi there,

I am interested in ARI Zoom. And would like to enquire if there would be a way to integrate this into VirtueMart?

What I want to achieve is that if I click on a product image published through VirtueMart, could I hover-over it and get this effect?

thanks in advance

mohin

Hello,

Sorry for delay, could you say which version of VirtueMart you use?

Regards,

ARI Soft

Hello,

Sorry for delay. We haven't get notification about your message and miss it. Could you specify what type of integration you need, use "ARI Zoom" plugin in product description or use the extension for product images?

Regards,

ARI Soft

Hi

I wish to use ARI Zoom for product Images.

Any special instructions?

Thanks

Eddie

Hello,

Could you provide a link to a page where you want to use the extension and specify for what images you want to use it?

Regards,
ARI Soft

Hi

Sure.

The site is <http://www.4footyfans.com>

I would like to zoom on all product images, either on the home page or when someone searches for and finds a product.

Best

Eddie
