How i can insert a title tag in Single Image
Posted by dhoholis - 2013/03/05 10:32
_____

I want to insert a title tag into a single image.
I show the title tag can be inserted into a csv file but this option
is available only in image galery.
Furthemore there is no documentation about the csv file
For example where must be located etc...

_____

Hello,

Download and upgrade the module and the plugin. After this add "title" attribute to {arizoom} tag with title for image.

CSV file with descriptions should be located in folder with images.

Regards,
ARI Soft
