
to see album flickr in article

Posted by rcepedal - 2011/04/21 09:25

Hi,

I create a new article in joomla with the code

```
{arimagnify activeType="flickr" source="photoset" photosetId=""}/arimagnify}
```

the page leaves to me totally in target, does not show anything, that I am making bad? they can give some real example me?

Thanks

Hello,

Have your entered Flickr API key in "Flickr gallery -> Flickr API key" parameter in "System - ARI Magnifier Anywhere" plugin settings? Photoset ID should be entered without brackets:

```
{arimagnify activeType="flickr" source="photoset" photosetId="72157626344736669"}/arimagnify}
```

Regards,
ARI Soft

Photoset ID should be entered without brackets

all ok

```
{arimagnify activeType="flickr" source="photoset" photosetId="72157626344736669"}/arimagnify}
```

thanks
