
Setting up the Magnifier to use in Virtuemart

Posted by altess - 2010/03/11 11:35

Hello, could you please provide instructions as to what I need to type in, and where if I need to use the plugin in Virtuemart (latest version)? I can't seem to be able to make it work. Here's the site in question:

<http://www.altess.us/store>

Hello,

Have you configured 'ARI Magnifier for VirtueMart' module?

Regards,
ARI Soft

Sorry about this. I had enabled the module, but hadn't noticed it's set to display on none of the menus. Off to report to the store owner - thanks for the tip!

magnifier does not seem to work with my setup.
<http://www.iaboard.com>

what do I need to do?

the plugin works on other pages.

I have made a 'ARI Magnifier for VirtueMart' module and published it in all menus...

Hello,

Sorry, but we can't open www.iaboard.com site. Check it please.

Regards,
ARI Soft

http://www.iaskate.com/Downhill-Speedboards/III-Figure/yagendoo_VaMazing_1.tpl.html

Problem 1: does not work automatically as advertised in Joomla on the top image?

Problem 2: has weird leftovers after mouse over on Joomla images in the descriptions.
